the University chapel is born as a reply to the doubts of young people before the experience of the Divine Mystery, doubts which reflect: search, transformation, dynamic action. "always keep Itaca in mind, to arrive there is your goal, but do not rush your journey, better still should it last many years; and in your old age you arrive to the island with everything you have gained on your journey, without hoping that Itaca will enrich you, Itaca presented you with the gift of a wonderful journey"

"ten siempre Itaca en la memoria, llegar allí es tu meta, mas no apresures el viaje, mejor que se extienda largos años; y en tu vejez arribes a la isla con cuanto hayas ganado en el camino, sin esperar que Itaca te enriquezca, Itaca te regaló un hermoso viaje"
