

**The First Congress of the
Federation of the European Physiological Societies
September 9 - 12, 1995 to be held in
Maastricht, the Netherlands**

Organized By FEPS:

Chairman organizing committee Robert S. Reneman, University of Limburg

Topics Include:

- Autonomic Function and Dysfunction - Cardiovascular / Respiratory Control, Bioregulation - Cellular Neurophysiology - Circulation / Hypertension
- Comparative Physiology - Developmental Physiology - Epithelia & Membrane Transport - Exercise Physiology - Gastro-Intestinal Physiology and Pathophysiology - Heart and Cardiac Muscle / Cardiac Failure
- Higher Sensory Functions - Ion Channels - Microvascular & Endothelial Physiology - Muscle Physiology - Renal Physiology and Pathophysiology
- Respiratory Physiology and Pathophysiology - Smooth Muscle
- Somatosensory Physiology

Registration fee not more than Dfl. 550,-, Students get discount of about 40%.

The organizers invite submission of abstracts for oral or poster presentation by April 10, 1995.

Call for papers will be made in December.
